

Bachelor of Science in Nursing - Concurrent Program

Our mission is to transform healthcare by preparing exceptional nurses, extending nursing science, and partnering with our global community. Graduates of the baccalaureate program in nursing are generalists prepared to care for culturally diverse individuals and groups across the lifespan in a complex global community. Upon completion of the innovative, technology-enhanced program, graduates are knowledgeable about current trends in health care, assume responsibility for their professional growth, and are prepared for Graduate study.

Inspiring Minds. Transforming Lives. Creating the Future.

CURRICULUM

The Concurrent Enrollment program blends ODU RN-BSN course work with the AAS curriculum thus, each semester students will have a schedule that includes AAS nursing courses at the partner institution and online ODU RN-BSN courses. For consideration for this program, students must apply separately to the nursing programs of the partner institutions. The AAS courses will be taken on site at the partner campuses and associated clinical sites. The ODU nursing courses will be delivered using an online format. Students will be able to complete the **AAS-BSN course work in two years**. All lower-division general education requirements must be completed prior to entrance into Concurrent Enrollment.

ADMISSIONS

The nursing application is supplementary to the university application. Please submit the concurrent enrollment nursing application directly to the School of Nursing with unofficial transcripts and letter of acceptance to the RN program attached. To review the School of Nursing Supplemental Application and requirements, please visit <https://www.odu.edu/nursing/undergraduate/concurrent-enrollment>

ACCREDITATION

The Baccalaureate degree program in nursing at Old Dominion University is accredited by the Commission on Collegiate Nursing Education. (<http://www.ccnaccreditation.org>).

Thank you for your interest in the RN-BSN curriculum at ODU. Our intake advising team is available to assist you with a review of your transcripts to help you develop a plan of study to complete your BSN at ODU. For assistance, please email a copy of your transcripts to our intake advisors as follows.

If your last name begins with
 A-K contact Todd Marville tmarvill@odu.edu
 L-Z contact Mark Pryor mpryor@odu.edu

The New Monarch Transformation, now available through the link below, allows prospective students to not only see how their credits may transfer to ODU but how they fall into their intended major by providing a degree plan.

Our RN-BSN nursing courses are available online. The online format offers flexible scheduling around rotating shiftwork. Both nationally and state accredited, the BSN program consists of 120–126 semester credits; sixty-six (66) credits in the nursing major and 54-60 credits in liberal arts and sciences which fulfill the university's general education requirements.

In addition to general education and non-nursing departmental requirements, students will complete 33 upper division nursing credits. Registered nurses are awarded, at no cost, 33 credits toward the BSN for prior nursing education. Non-nursing credits are accepted in transfer from other colleges and universities. A grade of "C" or better is necessary for transfer credit. In some cases, students may receive additional transfer credit for nursing coursework. All students must complete 30 semester hours at ODU to be awarded a degree from ODU.

Online BSN upper division courses: Sample Schedule

Class	Credits	Fall	Spring	Summer
305 (or NURS 226 at VCCS)	3	X	X	
306	3	X	X
