

Install Outlook App on iPad

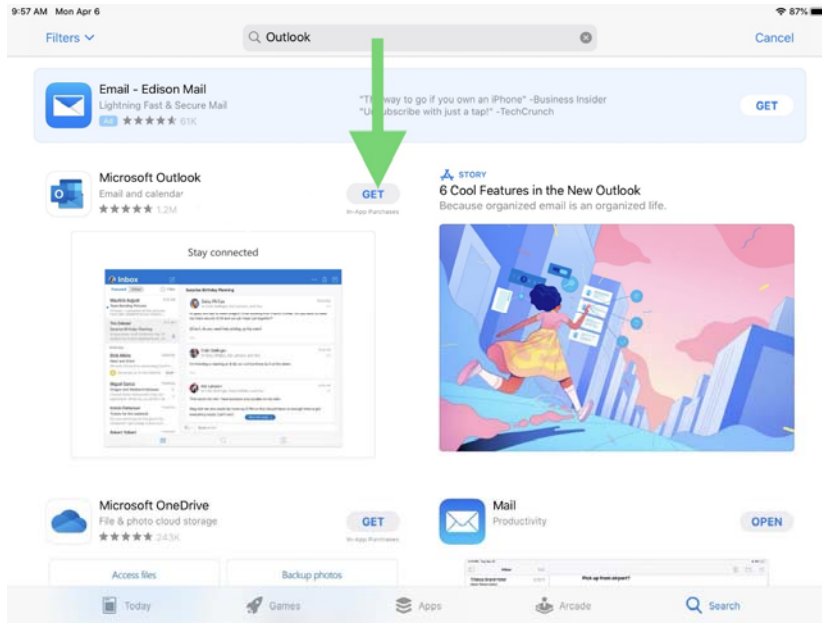

1. Got to App store

2. Select **Search**
3. In the Search bar Type **Outlook** and select **Search**

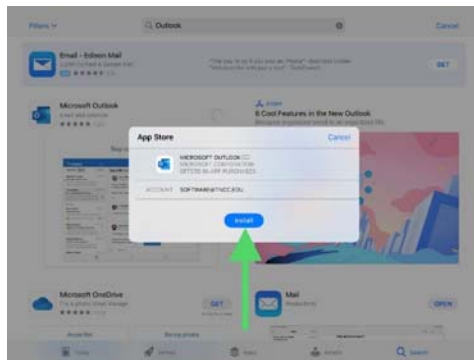

4. Select **Get** or if you see the cloud download icon press that and skip to step #7

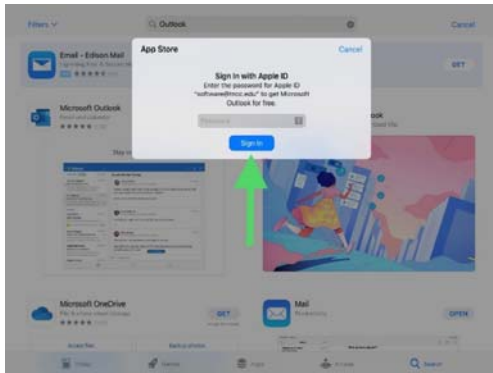

Commented [HR1]: #4 If you see the cloud download icon press that and skip to step #7

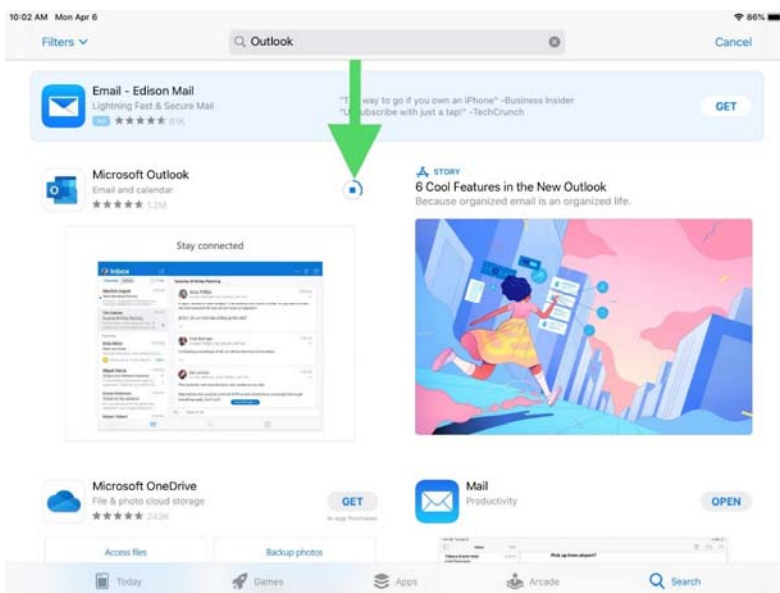

5. If prompted, select Install

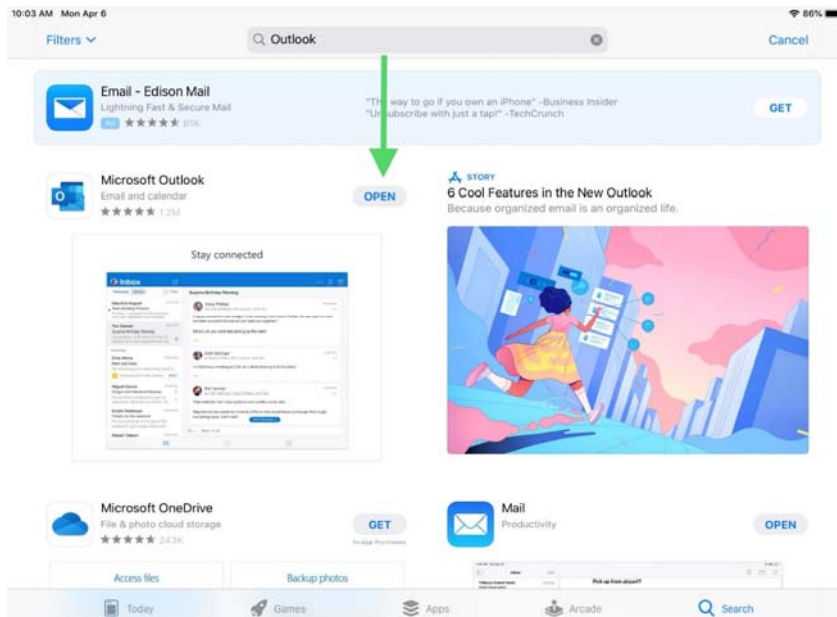

6. If prompted, enter your Apple ID Credentials

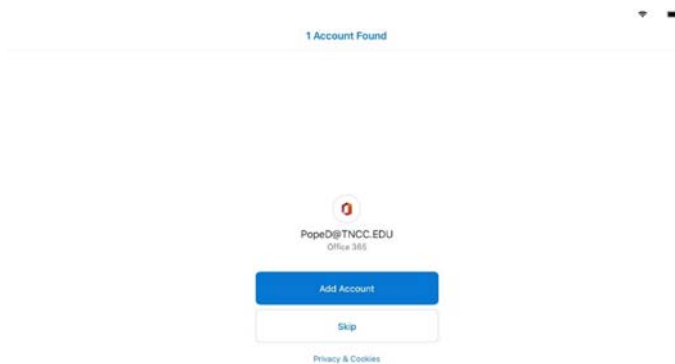

7. Let App finish downloading

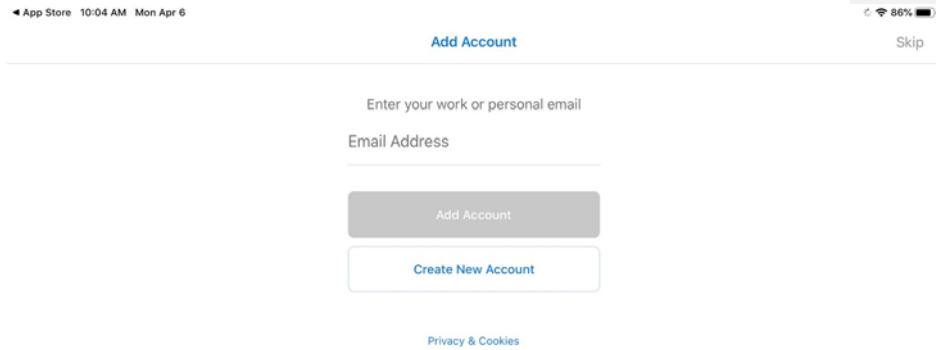

8. Once it changes to OPEN select **OPEN**

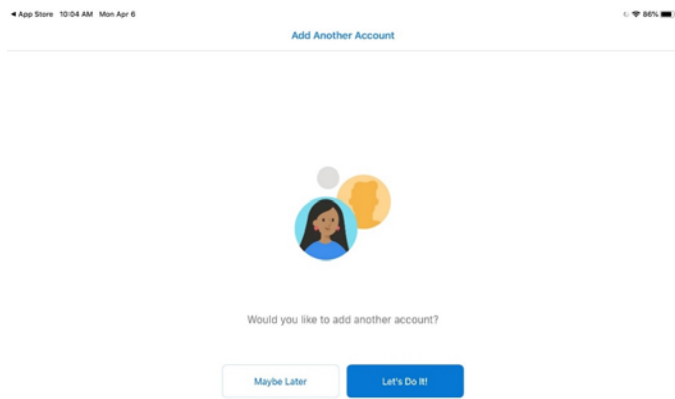

9. If your TNCC Account appears, you already have your TNCC email setup, you can select Skip

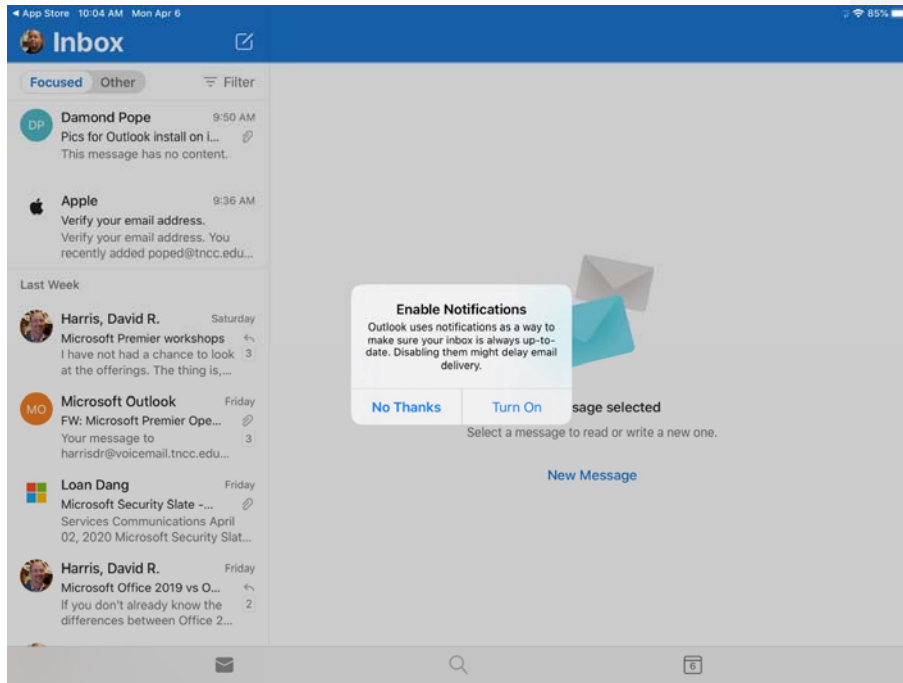

10. If Prompted enter your Apple ID Credentials

11. If Asked to Add another account, select Maybe later. You can add additional accounts later

12. If you want Notifications, select "Turn On". If you do not select Thanks

13. You are now setup to Use the Outlook App on your iPad
